Prepare for your delivery!

- [Preparing for your Science Materials Delivery](#): This resource includes guiding questions, helpful images, and best practices to ensure a smooth and manageable delivery.
- [Physical Materials inventory checklist](#): For a smooth process, we encourage you to create your own physical materials inventory checklist. [This template](#) allows you to list all purchased products and quantities found in your purchase order. This can assist in confirming all physical materials were received, and check for any missing or extra physical materials.
