

Comprehensive biliteracy suite

Spanish and English literacy system
grounded in the Science of Reading

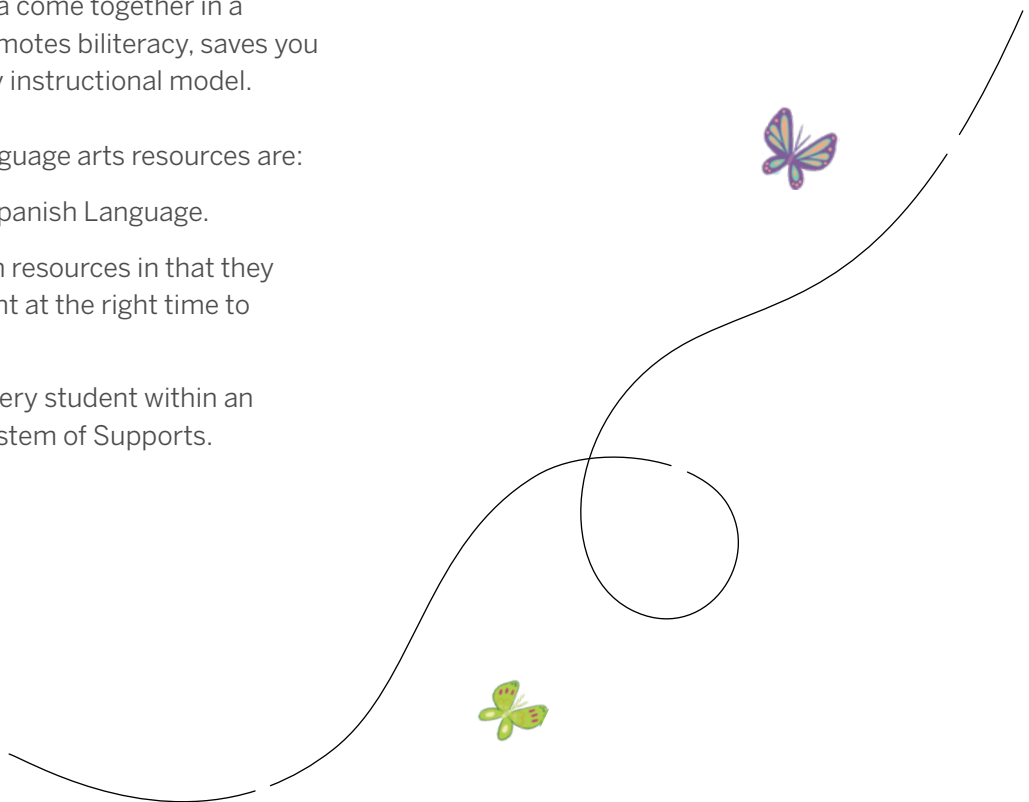

Support your emergent bilinguals with a comprehensive system

As an educator, you know there are countless life-long benefits of a bilingual education—but Spanish-speaking students have been underserved by instructional materials for far too long. To help educators foster great teaching and learning, we are proud to introduce the first comprehensive Spanish and English elementary biliteracy suite grounded in the Science of Reading.

The assessment and screening power of mCLASS® and mCLASS Lectora, the core instruction of Amplify Core Knowledge Language Arts (CKLA) and Amplify Caminos, and the personalized learning of Boost Reading and Boost Lectora come together in a complete system that promotes biliteracy, saves you time, and works within any instructional model.

Our authentic Spanish language arts resources are:

- Fully authentic to the Spanish Language.
- Equitable to our English resources in that they provide the right content at the right time to develop literacy.
- Designed to support every student within an aligned Multi-Tiered System of Supports.

System of multi-tiered biliteracy supports

1

Universal and dyslexia screening mCLASS Lectura and mCLASS

Assessing Spanish-speaking students in their native language is central to leveling the playing field and empowering them in their literacy journey. mCLASS Lectura works in tandem with mCLASS DIBELS® 8th Edition to provide equitable universal and dyslexia screening assessment. It's the only assessment to offer a dual language instructional report that shows how a student is reading in each language.

2

Core instruction Amplify Caminos and Amplify CKLA

Amplify Caminos provides you and your students with robust instruction grounded in the Science of Reading. Like its English language partner Amplify CKLA, Amplify Caminos provides explicit, systematic foundational skills instruction sequenced with deep knowledge-building content to foster comprehension.

3

Personalized learning Boost Lectura and Boost Reading

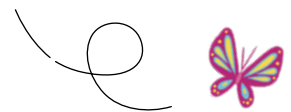

Boost Lectura uses captivating storylines and adaptive curriculum to engage students in powerful, personalized, and digital reading instruction. When Boost Reading and Boost Lectura are paired together, they build reading proficiency in both English and Spanish for grades K–2, creating the first truly digital biliteracy solution of its kind.

4

Science of Reading professional development Amplify training, events, and podcasts

Expert training helps you implement the full biliteracy suite with confidence. Additionally, our complimentary webinars, events, podcasts, and communities help thousands of biliteracy educators make the shift to the Science of Reading.

Comprehensive biliteracy system in action

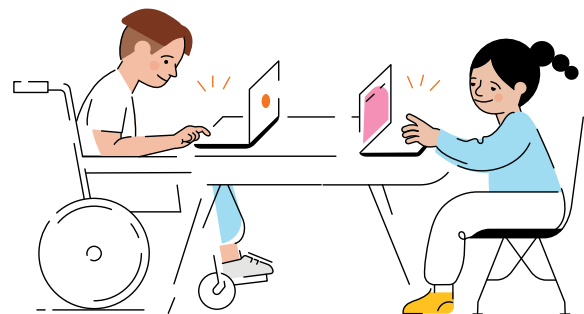

Assess: mCLASS Lectura and mCLASS

- Spanish and English universal and dyslexia screening
- Targeted, teacher-led instruction
- Ongoing progress monitoring and guidance to support cross-linguistic transfer

Data is used to inform instructional needs

Instruct: Amplify Caminos and Amplify CKLA

- Builds strong Spanish and English skills foundation
- Develops background knowledge and vocabulary
- Engages with culturally relevant connections and authentic Spanish literature

Practice: Boost Lectura and Boost Reading

- Personalized remediation and enrichment makes learning to read fun
- Differentiated practice reinforces and strengthens Amplify Caminos and Amplify CKLA instruction
- Research-based skills progression of how Spanish and English literacy develops
