# What do students read in Amplify CKLA®?

In Amplify CKLA, texts serve a variety of purposes, from building background knowledge, vocabulary, and comprehension to building decoding and fluency skills.

In grades K–2, instruction is segmented between two strands: Knowledge and Skills.

**Reading within the Knowledge Strand is centered around authentic read-alouds and trade books** that are intentionally sequenced to build content knowledge and vocabulary in specific domain topics around literature, history, science, and the arts. Because research shows that students' listening comprehension outpaces their reading comprehension until their early teens, Amplify CKLA strategically uses read-aloud text in this strand, allowing students to focus their cognitive energy on gaining meaning from the words and better understanding from the images.

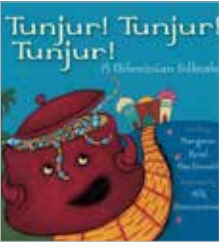

**Reading within the Skills Strand centers around carefully crafted Student Readers** that teach students how to read. Structured as chapter books, these readers are 100% decodable and were developed to align with Amplify CKLA's scope and sequence for phonics, directly connecting instruction to student practice in connected texts. Students use the Readers to practice decoding, fluency, and comprehension during shared reading lessons, targeted close reading sessions, in small groups, and independently.

We invite you to take a closer look at the rich and authentic reading opportunities Amplify CKLA provides throughout this grade.
