

About your PD package

Amplify's professional development packages support strong implementations through a set of three sessions: Launch, Strengthen, and Coach (specific to Core programs). These sessions can be delivered on-site or virtually and orient teachers to the full features of your Amplify program.

About your Coach session

Coach sessions elevate instructional practice and help meet teachers' and schools' specific needs. During these customized sessions, you'll partner with an Amplify coach who will support you in planning a day tailored to meet the needs of teachers and/or leaders. Your customized session for core programs will leverage our menu of supports, which can include:

- Lesson modeling by an Amplify facilitator.
- Classroom observations and debriefs.
- Grade-level planning.

A customized session for assessment programs focuses on building internal school and district capacity and leadership excellence to accelerate data-driven student outcomes for teachers using mCLASS. This could include:

- Observations and modeling.
- Real-time coaching.
- Co-planning.

When planning your Coach session, consider the outcomes, timing, and preferred modality. Additional Coach sessions can also be purchased as an enhancement to your current PD package(s).

On-site (3 or 6 hours) or virtual (3 hours)

Coach sessions

Coaching sessions focus on building internal school and district capacity and leadership excellence. Coaching is customized to meet a school or district's needs and can include model lessons, observations, walk-throughs, and/or co-planning.
