

2024–25

Classroom materials handbook

Welcome!

Dear TX ELAR educator,

Thank you for making Amplify Texas an integral part of your literacy curriculum. Amplify is proud to bring you a program with a content-rich knowledge sequence and systematic approach to foundational skills based on the research of some of the most prominent cognitive scientists and leading experts in education.

This guide will help you in the earliest days of your implementation, from receiving your materials to the first day of instruction. As always, we will support you every step of the way.

Our team shares your goal of improving student outcomes. Upon logging in to learning.amplify.com, click the orange chat button in the bottom-right corner. Here, you can chat live with our support team or search the help collection for step-by-step guidance. Our support hours are Monday through Friday, 7 a.m. to 9 p.m. ET.

Sincerely,
Susan Lambert
Chief Academic Officer, Humanities

Before the materials arrive

Get to know the program

For a deeper look at what makes up the Amplify ELAR Texas program, please refer to the Program Guide available on the Teacher Resource Site at learning.amplify.com. The Program Guide details the philosophy of instruction used in the creation of the program. It serves as succinct introductions to the program and its design.

Don't have a login yet? Visit texas.amplify.com to explore the robust library of supports available for teachers and leaders preparing for or using Amplify programs.

The different components at each grade level are shown below to give an overview of the program structure.

Before the delivery

The materials will be shipped either directly to your school or to your district's warehouse for distribution by your district, as determined by your district contact. There may be a large number of boxes, depending on the size of your order.

How to prepare:

- Get an overview of the program by browsing the K–5 Program Guide, available on the Amplify Texas Teacher Resource Site at learning.amplify.com.
- Understand what the components are and how they are packed to better facilitate organization and distribution using this Start Here Guide. This guide is distributed through email to your school or district's key contacts.
- Ensure that there is enough space to receive and sort the order.

Delivery and organization

Step 1: Sort delivery by grade level.

How you organize your shipment when it arrives depends on the delivery method you chose during the implementation process. Most program boxes are pre-packed and labeled so you can easily identify the grade level and contents and check them against the inventory list found on the following pages. Some products may be packed in mixed cartons at the time of fulfillment. This is necessary in order to pack each order with the exact number of student books required. These mixed cartons will include a packing slip that identifies the products in that box. If you are not receiving freight delivery, the materials can be quickly sorted using the information on the color-coded labels. The labels list the grade, strand, and component inside the box.

Sample box label

Each box will contain a label detailing the components inside.

Step 2: Unbox.

Once the boxes are sorted by grade, use this guide to help with organizing and taking inventory of the materials. On the top or side of some key interior boxes, there will be a complete list of the components inside. This will help you find what you need more quickly.

Step 3: Take inventory.

Within 25 days of receiving your order, please inventory all materials, referencing your order list and packing slips, to ensure that your kits are complete.

We do our best to ensure that each component is in the correct box, but if you ordered through Amplify and find any missing or damaged components, please contact us.

Amplify Support Team
