Welcome to Amplify Desmos Math California

The following pages contain the program components for each grade level.

In addition to the Teacher and Student Editions at each grade level, you will find a comprehensive set of ancillary resources to support the teaching and learning experience.

About the ancillary resources

Assessment Resources

This resource includes unit assessments, Show What You Know lesson assessments, rubrics, and answer pages.

Intervention, Extension, and Investigation Resources

Additional resources to reinforce and extend key concepts, including Mini-Lessons, Extensions, and California-specific grade-level investigations.

Math Language Development Resources

This resource provides teachers with specific strategies and activities for all levels of English Learners (i.e., Emerging, Expanding, Bridging) for each lesson.

Additional Practice

This resource provides extra practice problems for each lesson.

Manipulative Kit

Each optional kit contains an assortment of objects designed to foster experiential learning and enhance mathematical thinking.

Boost Math California

Boost Math is a personalized learning and intervention program that provides:

- Personalized practice to support student growth aligned to grade-level topics and skills
- Intervention resources for small-group instruction
- Assessment insights to inform instruction

mCLASS® Math California

mCLASS Math is an asset-based assessment system for benchmarking and progress monitoring.

Grade 6

Teacher materials

Teacher Edition Volume 1

9798895801154

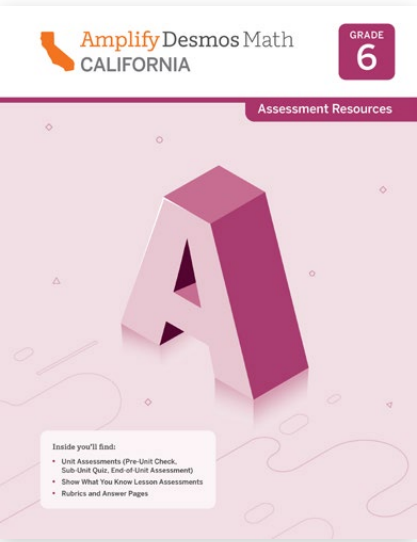

Teacher Edition Volume 2

9798895801161

Coming 2026–27

Teacher print support materials available in Spanish.
